INTER VIEW TIP!

RP interview (Role Play)
Depending on your position
play a setup scenario and solve the problem!

Even though you know they are acting
you see people actually crying, scary interview!

1 Don't try to win with logic!
2 Never get emotional!

Might sound like basics
but most interviewers go against this rule and kill themselves
Instead of trying to solve the problem by talking
showing them that your listening is very important!

Even if you get captured by a tiger, if you can stay awake!
(Proverbs in Korea)
